

CREST LINK

THE FUTURE IN APPAREL

PRODUCT CATALOGUE

Crest Link produces and markets golf apparel and golf accessories which have become popular in many countries.

Crest Link offers a wide selection of fashionable clothing suitable for tropical and temperate climates. CREST LINK apparel uses imported microfibre material from Taiwan made from high quality yarn, under the registered trademark of MICRO DRI. It offers efficient moisture absorption and evaporation, smooth feel and is lighter compared to other materials.

Design in trendy colors and fashionable styles, Crest Link is now the leading golf apparel in various markets around the world!

We believe in providing unique, high quality garments that combine functionality with aesthetic appeal making them a sure hit with customers around the globe.

FABRIC TECHNOLOGY

MICRO-DRI

Micro-Dri is a technology, built into the microfibre material that is engineered for performance. It works by wicking away sweat and moisture, keeping the wearer cool and lowers body temperature. This technology is included in all Crest Link performance apparel.

MICRO-DRI UV

Micro-Dri UV provides protection against UV rays of UPF 30+. It complies with international standards, whilst providing all of the functions of Micro-Dri.

MICRO-DRI A-VENT

Micro-Dri A-Vent provides the new "Air- Ventilation system" with ventilated fabric at strategic parts of the shirt. The A-Vent system keeps you cool and dry for a comfortable feel before, during and after the game.

COMP.TECH

Crest Link COMP.TECH is designed to increase blood flow to the arms, reduce muscle soreness and fatigue. Comp.Tech consists of a mix of material technologies such as the Micro-Dri and Micro-Dri UV. This combination of materials promises quick moisture evaporation as well as protection from the harmful UV rays.
